

# Holiday Homework

With so much time off – it would be easy to sit back, relax and do... **NOTHING**.

Before you know it, you'll be back at school and your brain will have gone 'rusty'.

Thankfully, this **holiday homework** will stop that from happening AND you never know – you might have a bit of fun at the same time.

Read at least one challenging book. Write about it in less than 100 words. Try to think about the whole book rather than simply trying to list ALL the things that happened.

### Example

This book is about a boy who realises that anything can be achieved if you try your hardest. Being the youngest of...

Get someone to test you on your multiplication tables and identify some that you are finding difficult to remember. Find some ingenious ways to learn them. You could stick them on post-it notes or create a memorable rhyme. Just be careful not to try to learn too many at the same time.

Identify something that you did not fully understand in class and think of some ways you can improve your understanding during the break. Perhaps you need to speak to an 'expert' or do some research.

Read an article in a children's newspaper or watch a report on a children's news programme – either live or online. Choose one that you think other children will be interested in (and perhaps won't have seen already) and write about it. Think about how you will engage your audience.
