## Fancy Dress Party

A Tricky Logic Problem for Children

Can you figure out what each person dressed up as and what they brought to the party?

|          | Clown | Tree | Monse | Pirate | Pizza     | Lemonade | Sushi | Cake     |  | <b>3</b> |
|----------|-------|------|-------|--------|-----------|----------|-------|----------|--|----------|
| Tom      |       |      |       |        |           |          |       |          |  | 201/E    |
| Katy     |       |      |       |        |           |          |       |          | SV   |          |
| Justin   |       |      |       |        |           |          |       |          | and a  |          |
| Amy      |       |      |       |        |           |          |       |          | A Company of the Comp |          |
| Pizza    |       |      |       |        |           | <b>~</b> |       |          |  |          |
| Lemonade |       |      |       |        | F         | Solution |       |          |  |          |
| Sushi    |       |      |       |        | -         | Child    |       | <u>d</u> | Costume  | Item     |
| Cake     |       |      |       |        |           |          |       |          |  |          |
|          |       |      |       |        | '  <br> - |          |       |          |  |          |
|          |       |      |       |        |           |          |       |          |  |          |
|          |       |      |       |        |           |          |       |          |  |          |

- A boy dressed up as a pirate.
- 2. Katy managed to get lemonade on her costume on the way there.
- 3. Justin was losing leaves throughout the party.
- 4. Someone saw a mouse Carrying a Cake to the party.
- 5. A life at sea meant the pirate didn't go anywhere without some sushi.
