

# Superheroes

A Tricky Logic Problem for Children

Can you figure out each superhero's special power and the name of their sidekick?

	Super Strength	X-Ray Vision	Super Speed	Invisibility	Bionic Boy	Sherbet	Paper Girl	Daisy D
Isotope								
Epix 3000								
Mercury								
Dynamic								
Bionic Boy								
Sherbet								
Paper Girl								
Daisy D								

## Solution

Superhero	Power	Sidekick

1. Isotope does not have x-ray vision and does not know Daisy D.
2. Paper Girl is always being left behind.
3. No one saw Dynamic and Bionic Boy save the cat from up the tree.
4. Epix 3000 has super strength.
5. Sherbet does not know anyone with super strength.
